

MULTIPURPOSE LOADING MACHINE DME-320MUP

Multipurpose loading machine DME-320MUP was built for soil digging, loading and unloading, for bulk-handling operations as well as for mechanized snow, debris and sand cleaning on roads, pedestrian ways and workshop yards.

TECHNICAL CHARACTERISTICS

Parameter	Value
Type	Машина универсальная погрузочная
Base tractor model	Беларус-320.4
Drawbar category of tractor	0,6
Nominal engine power, kW	26,5 + 2%
Loading attachment lifting capacity, кг	400
Nominal bucket volume, m ³	0,25
Unloading height, m	2,3
Bucket width, mm	1 100
Road brush NO-86-010 width, mm, max	1 800
Brush working width at 30° tilt, mm, min	1 300
Detachable snow blade DME-320-02 width, mm	1 800 + 50
Detachable snow blade DME-320-03 width, mm	1 900 + 50
Snow blade working width at tilt 30°, mm, min	1 600 + 50
Working speed, km/h, max	18
Driving speed, km/h, max	25
Overall dimensions with snow blade and road brush	
Length, mm, max	5 400
Width, mm, max	1 900
Height, mm, max	2 320
