

## MUNICIPAL MACHINE MK-1

### TECHNICAL CHARACTERISTICS

Parameter	Value
Type	Municipal machine
Basic tractor	Belarus
Tractor drawbar category	1,4 - 2,0
PTO mode, rpm	540
Road brush width, mm, max	2000
Min. working width, mm	1800
Brush rotor diameter, mm	550
Max brush weight, kg	400
Snow blade width, mm	2500
Snow blade height, mm	640
Working width at 30° tilt, mm	2200
Snow blade assembly weight, kg, max	300
External turning radius by tires, m:	
- right turn without braking	8,5
- left turn without braking	8,5
Ground clearance under attachments in transport position, mm, max	300
Sped, km/h:	
- working mode	18
- driving mode	30
Max overall dimensions with snow blade and road brush	
- length	6500
- width	2500
- height	2900
Max machine weight, kg	6120
Specific fuel consumption, g/kWh	226
